

Morris County Beekeepers Association

Meeting – Saturday, May 31, 2008

378 Route 24 (County Route 510)
Chester, NJ 07930

From the West:

Come into Chester on County Route 513. At the intersection of 513 and County Route 510 there is a traffic light with a Valley National Bank on one corner, a gas station with a market, a home and a small office building at the intersection. Turn east toward Mendham/Morristown. Go a little over one mile, the meeting is at the property on your right—the first house past Cliffwood Road. (The house is being resided and is currently just covered in Tyvek.)

From the East:

From Morristown, proceed west on County Route 513 (old State Route 24) about 10 miles from the green. You'll come through the center of Mendham, past the Mendham fire house on your left and Parks Farm on your right (big red barn and farm stand just past Old Mill Road). The last cross street on your left will be Fox Chase Road. It is the second house past the Delta gas station on your left. (The house is being resided and is currently just covered in Tyvek.)

The property is farmland assessed and recently changed hands. The new owner, John Mennen, has graciously agreed to let us meet there. I do not have access to the house, and I don't do refreshments...just bees! If you're having trouble finding us, my cell phone is 908 295-7620, but I'll stop answering it after the meeting starts. If you have questions about the meeting, best to call me ahead of time at home – 908 879-4377.
